PUBLISHERS NOTE

This directory contains public information gathered by an actual door-to-door canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city and suburban Directories, presents to subscribers and the general public, this, the latest edition of the Ames City Directory, which also includes Nevada and Story County Rural Residents.

Confidence in the growth of Ames' industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this City Directory are consulted, for the City Directory is a mirror truly reflecting Ames to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in City Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Ames and Nevada City Directory will fulfill its mission as a source of authentic information pertaining to the city and county.

Four Major Departments

The four major departments are arranged in the following order:

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of Ames and Nevada, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Ames and Nevada, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns of Ames is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation, and address of each adult resident of Ames, and the name, official personnel, nature, telephone number and address of each firm and corporation in the city. A similar list for Nevada is shown farther on in the Directory.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, for Ames is the third major department, printed on green paper. In this section, the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner—occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers. A similar list for Nevada is shown farther on in the Directory.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper. A similar list for Nevada is shown farther on in the Directory.

Community Publicity

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Ames and vicinity.

The Ames Directory Library

Through the courtesy of the publishers of the Ames City Directory, a Directory Library is maintained in the offices of the Ames Public Library, for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

This Central Iowa community of approximately 46,000 residents offers a unique blend of small--town friendliness and convenience with the amenities of a large city for an unsurpassable quality of life. The ease of life and the abundance of enriching activities make living and working in Ames a pleasure.

Ames was developed in 1865, in anticipation of an expansion of the Cedar Rapids and Missouri Railroad. The community was named after Oakes Ames, a Massachusetts congressman who was prominent in railroad legislation and financing.

From its early beginnings, Ames has grown to become "The Center of It All." It is just a few miles from the geographic center of the state and only 30 miles from the state capital and Iowa's largest city, Des Moines. But that is not the basis for its unusual standing. Rather, its rich quality of life results from its position at the heart of Iowa's cultural and educational resources, a position that holds great appeal to businesses and their employees.

Manufacturing, education, and the professions have surpassed farming as the major industrial focus of Ames. Iowa State University is the largest employer and ranks among the nation's leading research centers. It was an Iowa State University faculty member who invented the first electronic digital computer.

The headquarters of the Iowa Department of Transportation is located in Ames. The United States Department of Energy maintains the Ames Laboratory, a materials research facility, on the Iowa State University campus. The United States Department of Agriculture operates the National Animal Disease Center, the National Veterinary Services Laboratories, and the National Soil Tilth Laboratory in Ames.

These public institutions and the major businesses and industries account for a high incidence of professionals in Ames. The work force is highly educated and its strong work ethic is a powerful contributor to the vigor of the community. Story County, in which Ames is the largest community, ranks first in the state for its low poverty rate, and the Ames unemployment rate is among the state's lowest.

Ames is a progressive community. It established the nation's first municipally owned and operated resource recovery system that converts refuse into energy and recovers nonburnable materials for recycling. The city bus system earned recognition for Ames as an All America City. The public schools have been cited for excellence by the federal governments.

The Iowa State Center in Ames is the site of unmatched cultural, educational and entertainment facilities. Cities many times larger than Ames would be proud to have a complex such as this.

In Ames you are only minutes away from schools, parks, shopping, big--time sports and stage entertainment, restaurants, outdoor recreation, and your workplace. Driving and parking are easy, and the prices are right. No wonder, then, that Ames is "The Center of it All."

IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY

Iowa State University has emerged as a broad--based university of international stature from its beginning as an agricultural college. It was created as the Iowa Agricultural College and Model Farm by the Iowa General Assembly in 1858 and became a land--grant college in 1864 under terms of the federal Morrill Act. The first classes were taught in 1866. Iowa State was a worldwide pioneer in the establishment of agricultural studies on a

college level, was the first state institution to found a veterinary school, helped move the engineering profession to its present key position in an industrial society, emphasized basic sciences, and took leadership in establishing the profession of home economics. The modern Cooperative Extension Service network grew out of the early community Farmers Institute gatherings organized by Iowa State, and the electronic digital computer was invented at Iowa State in the last 1930's by physics and mathematics professor John V. Atanasoff. It was renamed Iowa State University of Science and Technology in 1959.

Colleges within the university are Agriculture, Business Administration, Design, Education, Engineering, Family and Consumer Sciences, Graduate, Sciences and Humanities and Veterinary Medicine.

The Stanton Memorial Carillon is a memorial to Margaret Mc Donald Stanton, first dean of women and her husband, Edgar W. Stanton, who served the University for 50 years. The carillon has 50 bells. Brief concerts are given each week day during the academic year. Longer concerts are performed on special occasions.

A federal land--grant institution, Iowa State has a three--fold mission:

1. Resident instruction on both the undergraduate and graduate levels.
2. Extensive programs of research.
3. Statewide University extension services.

Total University enrollment is 25,448 students. 21 residence halls house 8,800 students, 1,170 families and 450 single students live in university apartments.

More than \$86 million was spent on research at ISU in 1987--88.

University land in Ames and throughout the State totals 8,878 acres with 1,770 acres in the main campus and recreation areas, 170 major buildings.

THE IOWA DEPARTMENT OF TRANSPORTATION

The Iowa Department of Transportation was established by legislation passed by the 65th General Assembly in early 1974 and mandated to begin official functions July 1, 1974.

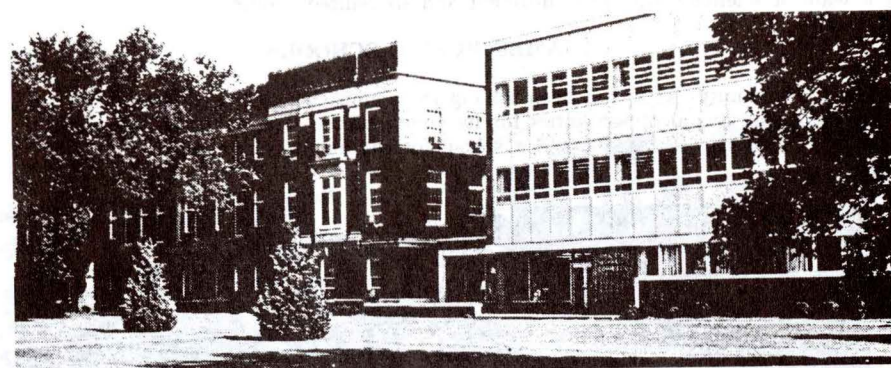

Its purpose is to assure adequate, safe and efficient transportation facilities for Iowa citizens by developing a total system which serves user needs and provides maximum economics and social benefits.

The Department includes nine divisions and a Transportation Regulation Board. The duties and responsibilities are summarized below.

ADMINISTRATION DIVISION: Provides general administrative and support services such as accounting, purchasing, information, data processing, personnel, facilities management and fleet operations.

HIGHWAY DIVISION: Responsible for project planning, design and Right--of--Way acquisition resulting in construction, and inspection of contracted primary road projects. Responsible for maintaining Iowa's primary road system for safe usage by the public. Acts as liaison in obtaining and disbursing federal highway funds.

AERONAUTICS DIVISION: Handles aircraft and pilot licensing, aircraft registration and airport programs. Acts as liaison in distributing federal aviation funding.

Central offices of the Iowa State Highway Commission in Ames, completed in 1961.

MOTOR VEHICLE DIVISION: Responsible for vehicle registration, drivers licenses, reciprocity and prorated truck registration, motor vehicle inspection, dealer's licenses, truck regulation, traffic weight operations, and toll bridge operations.

RAILROAD TRANSPORTATION DIVISION: Responsible for safety inspection of track, research and analysis of rail systems, and the state Rail Assistance Program.

PUBLIC TRANSIT DIVISION: Responsible for public transit planning and investigation of feasibility of various types of public transit. Acts as state designee for disbursement of federal mass transit funding.

RIVER TRANSPORTATION DIVISION: Coordinates use of river transportation with other transportation modes and examines potential for more efficient use of Iowa's waterways.

TRANSPORTATION REGULATION BOARD: Regulates routes and fees charged by truck and rail carriers, determines operating regulations and rules on transportation issues, changes in service, applications for public certificates of convenience and necessity.

PLANNING AND RESEARCH DIVISION: Responsible for DOT policy analysis, advance planning and determination of priorities. Collection of data to be used in transportation planning and coordination of transportation planning between state and local governments and transportation economic studies.

GENERAL COUNSEL DIVISION: Legal staff assigned from the Attorney General's office handles legal matters for the DOT.

More than 5,000 people are employed by the Iowa Department of Transportation in its various divisions. At present, the Administrative, Highway, Planning and General Counsel Divisions are headquartered in Ames.

NATIONAL ANIMAL DISEASE CENTER

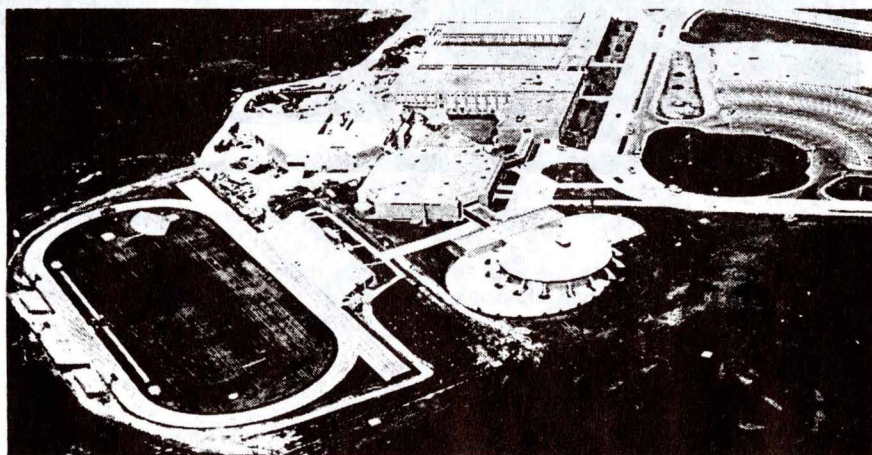

The National Animal Disease Center, Ames, Iowa, is the United States Department of Agriculture's laboratory for investigation of livestock and poultry diseases that occur in the United States. These diseases rob the American farmers of approximately \$2 billion annually and decrease the supply of animal protein to the consumer.

Completed and occupied in 1961, the Center is located three miles northeast of the city. Constructed for approximately \$16.5 million, the laboratory has an annual operating budget in excess of \$80.0 million and continues to expand its research and laboratory facilities. It is the world's most modern veterinary research facility requiring as many utilities and services as a small city. Many of the animals used in various research projects are reared at the Animal Production Unit, which is located approximately one and one-eighth miles south of the main laboratory.

The laboratory employs approximately 500 persons, one-fourth of whom are scientists—research veterinarians, microbiologists, pathologists, biochemists, physicists and other biological scientists. Many support employees such as laboratory assistants, technicians and administrative personnel are also employed. Investigation of each disease entity is conducted by a team of scientists who have different and specialized training.

AMES PUBLIC SCHOOLS

As a community, Ames has been willing to commit the necessary resources to assure outstanding educational opportunities for its young people. The public school system consists of a high school, middle school, and a school for the mentally retarded.

Ames Senior High School

Pupil enrollment, exclusive of about 2,000 people in adult education, is 5,000. There are approximately 368 teachers and other professional staff members and 220 other personnel—secretaries, food service employees, teacher associates and custodians. The average teaching load has been kept at about 25 children per teacher, 22 children per teacher in the elementary classes. The Ames schools have a fine staff of supervisors who give guidance in the curriculum areas at all levels. There also are special education services for children at all levels.

The Ames Community Schools consistently win prestigious national, regional, and state awards for excellence in curriculum, teaching and programming. Here is a partial list of recent honors:

Elementary Science National Science Teachers' Association Award

Elementary Media Centers National Library Association Award

Junior and Senior High Awards as Exemplary Schools by the U.S. Office of Education

The Teacher On Television Program, conducted in cooperation with the Iowa State University College of Education, won third place in a national competition conducted by the Association of Teacher Education, 1986--87.

Four hundred (400) merit scholar semifinalists from 1956 through 1987.

The average composite scores of 9th and 11th grade students on the Iowa Tests of Educational Development rank at the 99th percentile.

Frequent winners in math, history, science, music and art competitions at state and national levels.

State and national recognition of the regular and special education programs.

Consistent winners of the National Council of Teachers of English writing competition.

Five Presidential Scholars since the program was initiated approximately 20 years ago.

The district received an award for Excellence in Curriculum with Distinction from the Iowa Association for Supervision and Curriculum Development in 1985 and 1986.

THE IOWA STATE CENTER

The Iowa State Center

The Iowa State Center is a magnet for international performing artists, the best of Broadway, the world's leading symphony orchestra, and America's current popular entertainers. The four building complex includes C.Y. Stephens Auditorium, James H. Hilton Coliseum, Fisher Theater, and the Scheman Continuing Education Building.

C. Y. Stephens Auditorium seats 2,660 and has exceptional qualities for concerts, opera, ballet, drama and similar events.

The James H. Hilton Coliseum is the largest of the four buildings in the Iowa State Center complex. Used primarily for athletic events, it also seats 14,000 for commencement exercises, theater presentations, meetings, banquets, exhibits and displays. It also has an ice floor for hockey, ice shows and ice skating.

Fisher Theater is an intimate theater seating 424 patrons for student plays, small musical groups, lectures, dance recitals and similar programs.

The Scheman Continuing Education Building is designed to serve the approximately 30,000 persons who each year visit the campus for meetings, extension courses and conferences. It contains a 400--seat auditorium and 14 conference rooms.

The Jack Truce Field is the new football stadium adjacent to the Iowa State Center. The stadium shares parking facilities with the Center.

Conclusion

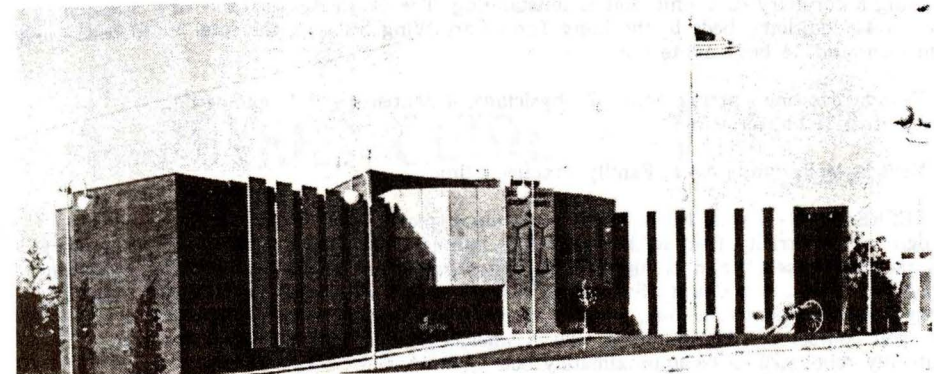

From the foregoing factual data, it can be seen that Ames offers many advantages—social, economic and educational. Ames possesses virtually every element vital to the social and economic welfare and personal happiness of the individual, and every element of success for the small business or small industry.

*Out of Sight!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer expects.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

Select and sell from your **CITY DIRECTORY**

IDENTIFY EACH PROSPECT

- by neighborhood, area, section of city
- by occupation, job title, marital status
- homeowner/renter/new occupant

No other source provides so much vital information about the residents of your community. Use it to compile a prospect list.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

CONSULTATIONS OR CIRCULATION
CONSULTED

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

*Therefore your ad in the City Directory
is seen by buyers from coast-to-coast*

THINK IT OVER

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

Four major directories in one volume:

- 1 Classified Business Directory . . . the names and addresses of all business and professional firms listed under appropriate headings.
- 2 Alphabetical Directory . . . all adult residents including: name—marital status—address—occupation—employer—householder or resident—retiree—student—member of Armed Services. AND . . . all business and professional firms including: Firm name and address—officers—owners—partners—managers—products or services.
- 3 Street Directory of Householders and Businesses . . . Every street address including: Individual Householder—telephone number—homeowner or renter—new resident—apartment building—business firm—type of business—office building—street description—intersecting streets—ZIP codes.
- 4 Numerical Telephone Directory . . . Telephones in number sequence including: Individual name—business firm name—pay telephones.

Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publisher at the address in the front of your Directory.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

FAIR PRACTICE CODE for ADVERTISING and SELLING recommended by the COUNCIL OF BETTER BUSINESS BUREAUS

- I. Serve the public with honest values.
- II. Tell the truth about what is offered.
- III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.
- IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.
- V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.
- VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.
- VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.
- VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.
- IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.
- X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

Use Our Library of

OUT - OF - TOWN CITY DIRECTORIES

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

The Telephone Numbers and names in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

The City Directory

represents the City and its
institutions in every cor-
ner of these United States

**Are You Properly
Represented In It?**

The Classified portion
catalogues the professions
and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?

"Think It Over"

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

**If you think
your business is so good
you don't have to advertise
... you could be in trouble.**

**PROPERLY USED, YOUR CITY DIRECTORY
IS ONE OF THE BEST SELLING TOOLS**

1990 STORY COUNTY RURAL RESIDENTS

POLK.

**Including Towns of
Cambridge, Collins, Colo, Fernald, Gilbert, Huxley,
Kelley, Maxwell, McCallsburg, Roland, Slater,
Story City, Zearing and County Residents**
